

Request to transfer domain names from an accredited .lu registrar to DNS-LU

This request is done on behalf of:

Organisation, holder

Surname, Forename (in case of private person)

Street, Number

Zip code, city

Country

About this request

This form is only used for information purposes and does not constitute a contractual agreement. It is only used to inform DNS-LU of your intention to transfer domain names from an accredited .lu registrar to DNS-LU. Registering a transfer request is not a guarantee for the proper finalisation of the request. Please only indicate the domain names to be transferred in the box below and send this form to DNS-LU by fax or ordinary postal service. Present request is only valid when a duly filled in and signed application form is joined for every domain name to be transferred. The application form is downloadable under www.dns.lu.

Finalisation of the transfer request

After DNS-LU has registered the data as indicated on the attached application form, an automatic email is sent to the admin contact to confirm the transfer. The confirmation must be done within 15 days, otherwise the request is timed out.

Impact of the transfer

The holder is becoming a direct client of DNS-LU instead of its original registrar. Exclusively the appointed billing contact receives the registration and its annual renewal invoices from DNS-LU for all domain names transferred.

I / we would like to transfer the administration of following domain names to DNS-LU

Indicate domains in opposite box
